Brooklyn Doc Wins a Fight.

An interesting compilation of the number of winning favorities at the race tracks in this vicinity will be found below. It will probably prove an eye-opener to those who are constantly arguing that the Guttenburg and Brighton tracks are nests of crookedness, and that fair running on these tracks is unheard of. At Guttenburg, from May 5 to May 14 inclusive, there were run 52 races, 28 of which were won by favorites. At Gravesend, from May 15 to May 120 inclusive, 37 favorites minished first in 77 races. At Morris Park, from May 30 to June 15, 85 races were run, in which 36 favorites were successful. At Sheepshead, from June 16 to July 1, 37 favorities won in a total of 186 races. At Brighton, from July 1 to July 30, 95 favorites finished first in 182 races. At Monnouth Park (Jerome), from July 11 to Aug. 1, 83 races were run and 34 favorities finished winners. As regards the edds against these favorities another interesting compilation shows that at Guttenburg no favorities won at smaller odds than 3 to 5 against. Gravesend had four winning favorities are smaller odds than 3 to 5 against. Morris Park had 5, Sheepshead had 4 and Brighton 13. From the seculative point of view the meeting at Gut enburg is far and away the best of the 101, 53) per cent. of the races run being won oy favorities at better odds than 3 to 5 against.
